

Television Receiving Antenna Notification

Date: _____

Name: _____

Address: _____

Home Phone #: _____

Business Phone #: _____

The intent of this form is to notify the Riverton Community Association of the homeowner's decision to install an antenna within the following guidelines:

Type of Antenna: (check one)

- Satellite Dish - one meter or less (39") in diameter.
- Off-the-air antennas - standard outside TV antennas.
- Multipoint Distribution Service antenna (MDS) - one meter or less (39") in any direction, used to receive through-the-air cable.

- *** The mast, used to mount the antenna, is not more than 12 feet above the roof line.
- *** The receiving device location is least visible from neighbors and the front of the house.
- *** My residence is not a townhouse, apartment or condominium.
- *** If residence is a townhouse, apartment or condominium, my rental agent, landlord or sub-association has been notified.
- *** If I live in a rented house, the installation will not be completed until I have written owner approval.

If your installation meets all of the guidelines, the approval is automatic. Fill in your name, address, phone number, check type of antenna then sign at the bottom. Return completed form to the RCA office. No further action is required. If your installation requirements do not meet the above guidelines, you will need to present documentation to the ARB to explain the situation. (e.g., a memo from the installation company stating that the only location that function is visible from the front of the house, etc.)
